

**NEW YORK STATE
DEPARTMENT OF FINANCIAL SERVICES
PROPOSED
23 NYCRR 500**

CYBERSECURITY REQUIREMENTS FOR FINANCIAL SERVICES COMPANIES

I, Maria T. Vullo, Superintendent of Financial Services, pursuant to the authority granted by sections 102, 201, 202, 301, 302 and 408 of the Financial Services Law, do hereby promulgate Part 500 of Title 23 of the Official Compilation of Codes, Rules and Regulations of the State of New York, to take effect upon publication in the State Register, to read as follows:

(ALL MATTER IS NEW)

Section 500.00 Introduction.

The New York State Department of Financial Services (“DFS”) has been closely monitoring the ever-growing threat posed to information and financial systems by nation-states, terrorist organizations and independent criminal actors. Recently, cybercriminals have sought to exploit technological vulnerabilities to gain access to sensitive electronic data. Cybercriminals can cause significant financial losses for DFS regulated entities as well as for New York consumers whose private information may be revealed and/or stolen for illicit purposes. The financial services industry is a significant target of cybersecurity threats. DFS appreciates that many firms have proactively increased their cybersecurity programs with great success.

Given the seriousness of the issue and the risk to all regulated entities, certain regulatory minimum standards are warranted, while not being overly prescriptive so that cybersecurity programs can match the relevant risks and keep pace with technological advances. Accordingly, this regulation is designed to promote the protection of customer information as well as the information technology systems of regulated entities. This regulation requires each company to assess its specific risk profile and design a program that addresses its risks in a robust fashion. Senior management must take this issue seriously and be responsible for the organization’s cybersecurity program and file an annual certification confirming compliance with these regulations. A regulated entity’s cybersecurity program must ensure the safety and soundness of the institution and protect its customers.

It is critical for all regulated institutions that have not yet done so to move swiftly and urgently to adopt a cybersecurity program and for all regulated entities to be subject to minimum standards with respect to their programs. The number of cyber events has been steadily increasing and estimates of potential risk to our financial services industry are stark. Adoption of the program outlined in these regulations is a priority for New York State.

Section 500.01 Definitions.

For purposes of this Part only, the following definitions shall apply:

(a) *Affiliate* means any Person that controls, is controlled by or is under common control with another Person. For purposes of this subsection, control means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a Person, whether through the ownership of stock of such Person or otherwise.

(b) *Authorized User* means any employee, contractor, agent or other Person that participates in the business operations of a Covered Entity and is authorized to access and use any Information Systems and data of the Covered Entity.

(c) *Covered Entity* means any Person operating under or required to operate under a license, registration, charter, certificate, permit, accreditation or similar authorization under the Banking Law, the Insurance Law or the Financial Services Law.

(d) *Cybersecurity Event* means any act or attempt, successful or unsuccessful, to gain unauthorized access to, disrupt or misuse an Information System or information stored on such Information System.

(e) *Information System* means a discrete set of electronic information resources organized for the collection, processing, maintenance, use, sharing, dissemination or disposition of electronic information, as well as any specialized system such as industrial/process controls systems, telephone switching and private branch exchange systems, and environmental control systems.

(f) *Multi-Factor Authentication* means authentication through verification of at least two of the following types of authentication factors:

- (1) Knowledge factors, such as a password; or
- (2) Possession factors, such as a token or text message on a mobile phone; or
- (3) Inherence factors, such as a biometric characteristic.

(g) *Nonpublic Information* shall mean all electronic information that is not Publicly Available Information and is:

(1) Business related information of a Covered Entity the tampering with which, or unauthorized disclosure, access or use of which, would cause a material adverse impact to the business, operations or security of the Covered Entity;

(2) Any information concerning an individual which because of name, number, personal mark, or other identifier can be used to identify such individual, in combination with any one or more of the following data elements: (i) social security number, (ii) drivers' license number or non-driver identification card number, (iii) account number, credit or debit card number, (iv) any security code, access code or password that would permit access to an individual's financial account; or (v) biometric records.

(3) Any information or data, except age or gender, in any form or medium created by or derived from a health care provider or an individual and that relates to (i) the past, present or future physical, mental or behavioral health or condition of any individual or a member of the individual's family, (ii) the provision of health care to any individual, or (iii) payment for the provision of health care to any individual.

(h) *Person* means any individual or any non-governmental entity, including but not limited to any non-governmental partnership, corporation, branch, agency or association.

(i) *Penetration Testing* means a test methodology in which assessors attempt to circumvent or defeat the security features of an Information System by attempting unauthorized penetration of databases or controls from outside or inside the Covered Entity's Information Systems.

(j) *Publicly Available Information* means any information that a Covered Entity has a reasonable basis to believe is lawfully made available to the general public from: federal, state or local government records; widely distributed media; or disclosures to the general public that are required to be made by federal, state or local law.

(1) For the purposes of this subsection, a Covered Entity has a reasonable basis to believe that information is lawfully made available to the general public if the Covered Entity has taken steps to determine:

(i) That the information is of the type that is available to the general public; and

(ii) Whether an individual can direct that the information not be made available to the general public and, if so, that such individual has not done so.

(k) *Risk Assessment* means the risk assessment that each Covered Entity is required to conduct under section 500.09 of this Part.

(l) *Risk-Based Authentication* means any risk-based system of authentication that detects anomalies or changes in the normal use patterns of a Person and requires additional verification of the Person's identity when such deviations or changes are detected, such as through the use of challenge questions.

(m) *Senior Officer(s)* means the senior individual or individuals (acting collectively or as a committee) responsible for the management, operations, security, information systems, compliance and/or risk of a Covered Entity, including a branch or agency of a foreign banking organization subject to this Part.

(n) *Third Party Service Provider(s)* means a Person that (i) is not an Affiliate of the Covered Entity, (ii) provides services to the Covered Entity, and (iii) maintains, processes or otherwise is permitted access to Nonpublic Information through its provision of services to the Covered Entity.

Section 500.02 Cybersecurity Program.

(a) Cybersecurity Program. Each Covered Entity shall maintain a cybersecurity program designed to protect the confidentiality, integrity and availability of the Covered Entity's Information Systems.

(b) The cybersecurity program shall be based on the Covered Entity's Risk Assessment and designed to perform the following core cybersecurity functions:

(1) identify and assess internal and external cybersecurity risks that may threaten the security or integrity of Nonpublic Information stored on the Covered Entity's Information Systems;

(2) use defensive infrastructure and the implementation of policies and procedures to protect the Covered Entity's Information Systems, and the Nonpublic Information stored on those Information Systems, from unauthorized access, use or other malicious acts;

- (3) detect Cybersecurity Events;
- (4) respond to identified or detected Cybersecurity Events to mitigate any negative effects;
- (5) recover from Cybersecurity Events and restore normal operations and services; and
- (6) fulfill applicable regulatory reporting obligations.

(c) A Covered Entity may meet the requirements of this Part by adopting a cybersecurity program maintained by an Affiliate, provided that the Affiliate's cybersecurity program covers the Covered Entity's Information Systems and Nonpublic Information and meets the requirements of this Part.

(d) All documentation and information relevant to the Covered Entity's cybersecurity program shall be made available to the superintendent upon request.

Section 500.03 Cybersecurity Policy.

(a) Cybersecurity Policy. Each Covered Entity shall implement and maintain a written policy or policies, approved by a Senior Officer or the Covered Entity's board of directors (or an appropriate committee thereof) or equivalent governing body, setting forth the Covered Entity's policies and procedures for the protection of its Information Systems and Nonpublic Information stored on those Information Systems. The cybersecurity policy shall be based on the Covered Entity's Risk Assessment and address the following areas to the extent applicable to the Covered Entity's operations:

- (1) information security;
- (2) data governance and classification;
- (3) asset inventory and device management;
- (4) access controls and identity management;
- (5) business continuity and disaster recovery planning and resources;
- (6) systems operations and availability concerns;
- (7) systems and network security;
- (8) systems and network monitoring;
- (9) systems and application development and quality assurance;
- (10) physical security and environmental controls;
- (11) customer data privacy;

(12) vendor and Third Party Service Provider management;

(13) risk assessment; and

(14) incident response.

Section 500.04 Chief Information Security Officer.

(a) Chief Information Security Officer. Each Covered Entity shall designate a qualified individual responsible for overseeing and implementing the Covered Entity's cybersecurity program and enforcing its cybersecurity policy (for purposes of this Part, "Chief Information Security Officer" or "CISO"). The CISO may be employed by the Covered Entity, one of its Affiliates or a Third Party Service Provider. To the extent this requirement is met using a Third Party Service Provider or an Affiliate, the Covered Entity shall:

(1) retain responsibility for compliance with this Part;

(2) designate a senior member of the Covered Entity's personnel responsible for direction and oversight of the Third Party Service Provider; and

(3) require the Third Party Service Provider to maintain a cybersecurity program that protects the Covered Entity in accordance with the requirements of this Part.

(b) Report. The CISO of each Covered Entity shall report in writing at least annually to the Covered Entity's board of directors or equivalent governing body. If no such board of directors or equivalent governing body exists, such report shall be timely presented to a Senior Officer of the Covered Entity responsible for the Covered Entity's cybersecurity program. The CISO shall report on the Covered Entity's cybersecurity program and material cybersecurity risks. The CISO shall consider to the extent applicable:

(1) the confidentiality of Nonpublic Information and the integrity and security of the Covered Entity's Information Systems;

(2) the Covered Entity's cybersecurity policies and procedures;

(3) material cyber risks to the Covered Entity;

(4) overall effectiveness of the Covered Entity's cybersecurity program; and

(5) material Cybersecurity Events involving the Covered Entity during the time period addressed by the report.

Section 500.05 Penetration Testing and Vulnerability Assessments.

(a) The cybersecurity program for each Covered Entity shall include monitoring and testing, developed in accordance with the Covered Entity's Risk Assessment, designed to assess the effectiveness of the Covered Entity's cybersecurity program. The monitoring and testing shall include continuous monitoring or periodic penetration testing and vulnerability assessments, and shall be done periodically. Absent effective continuous

monitoring, or other systems to detect, on an ongoing basis, changes in Information Systems that may create or indicate vulnerabilities, Covered Entities shall conduct:

(1) annual penetration testing of the Covered Entity's Information Systems determined each given year based on relevant identified risks in accordance with the Risk Assessment; and

(2) bi-annual vulnerability assessments, including any systematic scans or reviews of Information Systems reasonably designed to identify publicly known cybersecurity vulnerabilities in the Covered Entity's Information Systems based on the Risk Assessment.

Section 500.06 Audit Trail.

(a) Each Covered Entity shall securely maintain systems that, to the extent applicable and based on its Risk Assessment:

(1) are designed to reconstruct material financial transactions sufficient to support normal operations and obligations of the Covered Entity; and

(2) include audit trails designed to detect and respond to Cybersecurity Events that have a reasonable likelihood of materially harming any material part of the normal operations of the Covered Entity.

(b) Each Covered Entity shall maintain records required by this section for not fewer than five years.

Section 500.07 Access Privileges.

As part of its cybersecurity program, based on the Covered Entity's Risk Assessment each Covered Entity shall limit user access privileges to Information Systems that provide access to Nonpublic Information and shall periodically review such access privileges.

Section 500.08 Application Security.

(a) Each Covered Entity's cybersecurity program shall include written procedures, guidelines and standards designed to ensure the use of secure development practices for in-house developed applications utilized by the Covered Entity, and procedures for evaluating, assessing or testing the security of externally developed applications utilized by the Covered Entity within the context of the Covered Entity's technology environment.

(b) All such procedures, guidelines and standards shall be periodically reviewed, assessed and updated as necessary by the CISO (or a qualified designee) of the Covered Entity.

Section 500.09 Risk Assessment.

(a) Each Covered Entity shall conduct a periodic Risk Assessment of the Covered Entity's Information Systems sufficient to inform the design of the cybersecurity program as required by this Part. Such Risk Assessment shall be updated as reasonably necessary to address changes to the Covered Entity's Information Systems, Nonpublic Information or business operations. The Covered Entity's Risk Assessment shall allow for revision of controls to respond to technological developments and evolving threats and shall consider the

particular risks of the Covered Entity's business operations related to cybersecurity, Nonpublic Information collected or stored, Information Systems utilized and the availability and effectiveness of controls to protect Nonpublic Information and Information Systems.

(b) The Risk Assessment shall be carried out in accordance with written policies and procedures and shall be documented. Such policies and procedures shall include:

(1) criteria for the evaluation and categorization of identified cybersecurity risks or threats facing the Covered Entity;

(2) criteria for the assessment of the confidentiality, integrity, security and availability of the Covered Entity's Information Systems and Nonpublic Information, including the adequacy of existing controls in the context of identified risks; and

(3) requirements describing how identified risks will be mitigated or accepted based on the Risk Assessment and how the cybersecurity program will address the risks.

Section 500.10 Cybersecurity Personnel and Intelligence.

(a) Cybersecurity Personnel and Intelligence. In addition to the requirements set forth in 500.04(a), each Covered Entity shall:

(1) utilize qualified cybersecurity personnel of the Covered Entity, an Affiliate or a Third Party Service Provider sufficient to manage the Covered Entity's cybersecurity risks and to perform or oversee the performance of the core cybersecurity functions specified in section 500.02(b)(1)-(6) of this Part;

(2) provide cybersecurity personnel with cybersecurity updates and training sufficient to address relevant cybersecurity risks; and

(3) verify that key cybersecurity personnel take steps to maintain current knowledge of changing cybersecurity threats and countermeasures.

(b) A Covered Entity may choose to utilize an Affiliate or qualified Third Party Service Provider to assist in complying with the requirements set forth in this Part, subject to the requirements set forth in section 500.11 of this Part.

Section 500.11 Third Party Service Provider Security Policy.

(a) Third Party Service Provider Policy. Each Covered Entity shall implement written policies and procedures designed to ensure the security of Information Systems and Nonpublic Information that are accessible to, or held by, Third Party Service Providers. Such policies and procedures shall be based on the Risk Assessment of the Covered Entity and shall address to the extent applicable:

(1) the identification and risk assessment of Third Party Service Providers;

(2) minimum cybersecurity practices required to be met by such Third Party Service Providers in order for them to do business with the Covered Entity;

(3) due diligence processes used to evaluate the adequacy of cybersecurity practices of such Third Party Service Providers; and

(4) periodic assessment of such Third Party Service Providers based on the risk they present and the continued adequacy of their cybersecurity practices.

(b) Such policies and procedures shall include relevant guidelines for due diligence and/or contractual protections relating to Third Party Service Providers including to the extent applicable guidelines addressing:

(1) the Third Party Service Provider's policies and procedures for access controls including its use of Multi-Factor Authentication as defined by section 500.12 to limit access to sensitive systems and Nonpublic Information;

(2) the Third Party Service Provider's policies and procedures for use of encryption as defined by section 500.15 to protect Nonpublic Information in transit and at rest;

(3) notice to be provided to the Covered Entity in the event of a Cybersecurity Event directly impacting the Covered Entity's Information Systems or Non-public Information being held by the Third Party Service Provider; and

(4) representations and warranties addressing the Third Party Service Provider's cybersecurity policies and procedures that relate to the security of the Covered Entity's Information Systems or Nonpublic Information.

(c) Limited Exception. An agent, employee, representative or designee of a Covered Entity who is itself a Covered Entity need not develop its own Third Party Information Security Policy pursuant to this section if the agent, employee, representative or designee follows the policy of the Covered Entity that is required to comply with this Part.

Section 500.12 Multi-Factor Authentication.

(a) Multi-Factor Authentication. Based on its Risk Assessment, each Covered Entity shall use effective controls, which may include Multi-Factor Authentication or Risk-Based Authentication, to protect against unauthorized access to Nonpublic Information or Information Systems.

(b) Multi-Factor Authentication shall be utilized for any individual accessing the Covered Entity's internal networks from an external network, unless the Covered Entity's CISO has approved in writing the use of reasonably equivalent or more secure access controls.

Section 500.13 Limitations on Data Retention.

As part of its cybersecurity program, each Covered Entity shall include policies and procedures for the secure disposal on a periodic basis of any Nonpublic Information identified in 500.01(g)(2)-(3) that is no longer necessary for business operations or for other legitimate business purposes of the Covered Entity, except where

such information is otherwise required to be retained by law or regulation, or where targeted disposal is not reasonably feasible due to the manner in which the information is maintained.

Section 500.14 Training and Monitoring.

(a) As part of its cybersecurity program, each Covered Entity shall:

(1) implement risk-based policies, procedures and controls designed to monitor the activity of Authorized Users and detect unauthorized access or use of, or tampering with, Nonpublic Information by such Authorized Users; and

(2) provide for regular cybersecurity awareness training for all personnel that is updated to reflect risks identified by the Covered Entity in its Risk Assessment.

Section 500.15 Encryption of Nonpublic Information.

(a) As part of its cybersecurity program, based on its Risk Assessment, each Covered Entity shall implement controls, including encryption, to protect Nonpublic Information held or transmitted by the Covered Entity both in transit over external networks and at rest.

(1) To the extent a Covered Entity determines that encryption of Nonpublic Information in transit over external networks is infeasible, the Covered Entity may instead secure such Nonpublic Information using effective alternative compensating controls reviewed and approved by the Covered Entity's CISO.

(2) To the extent a Covered Entity determines that encryption of Nonpublic Information at rest is infeasible, the Covered Entity may instead secure such Nonpublic Information using effective alternative compensating controls reviewed and approved by the Covered Entity's CISO.

(b) To the extent that a Covered Entity is utilizing compensating controls under (a) above, the feasibility of encryption and effectiveness of the compensating controls shall be reviewed by the CISO at least annually.

Section 500.16 Incident Response Plan.

(a) As part of its cybersecurity program, each Covered Entity shall establish a written incident response plan designed to promptly respond to, and recover from, any Cybersecurity Event materially affecting the confidentiality, integrity or availability of the Covered Entity's Information Systems or the continuing functionality of any aspect of the Covered Entity's business or operations.

(b) Such incident response plan shall address the following areas:

(1) the internal processes for responding to a Cybersecurity Event;

(2) the goals of the incident response plan;

(3) the definition of clear roles, responsibilities and levels of decision-making authority;

(4) external and internal communications and information sharing;

(5) identification of requirements for the remediation of any identified weaknesses in Information Systems and associated controls;

(6) documentation and reporting regarding Cybersecurity Events and related incident response activities; and

(7) the evaluation and revision as necessary of the incident response plan following a Cybersecurity Event.

Section 500.17 Notices to Superintendent.

(a) Notice of Cybersecurity Event. Each Covered Entity shall notify the superintendent as promptly as possible but in no event later than 72 hours from a determination that a Cybersecurity Event as follows has occurred:

(1) Cybersecurity Events of which notice is required to be provided to any government body, self-regulatory agency or any other supervisory body; and

(2) Cybersecurity Events that have a reasonable likelihood of materially harming any material part of the normal operation(s) of the Covered Entity.

(b) Annually each Covered Entity shall submit to the superintendent a written statement by February 15, in such form set forth as Appendix A, certifying that the Covered Entity is in compliance with the requirements set forth in this Part. Each Covered Entity shall maintain for examination by the Department all records, schedules and data supporting this certificate for a period of five years. To the extent a Covered Entity has identified areas, systems or processes that require material improvement, updating or redesign, the Covered Entity shall document the identification and the remedial efforts planned and underway to address such areas, systems or processes. Such documentation must be available for inspection by the superintendent.

Section 500.18 Confidentiality.

Information provided by a Covered Entity pursuant to this Part is subject to exemptions from disclosure under the Banking Law, Insurance Law, Financial Services Law, Public Officers Law or any other applicable state or federal law.

Section 500.19 Exemptions.

(a) Limited Exemption. Each Covered Entity with:

(1) fewer than 10 employees including any independent contractors, or

(2) less than \$5,000,000 in gross annual revenue in each of the last three fiscal years, or

(3) less than \$10,000,000 in year-end total assets, calculated in accordance with generally accepted accounting principles, including assets of all Affiliates,

shall be exempt from the requirements of Sections 500.04, 500.05, 500.06, 500.08, 500.10, 500.12, 500.14, 500.15, and 500.16 of this Part.

(b) An employee, agent, representative or designee of a Covered Entity, who is itself a Covered Entity, is exempt from this Part and need not develop its own cybersecurity program to the extent that the employee, agent, representative or designee is covered by the cybersecurity program of the Covered Entity.

(c) A Covered Entity that does not directly or indirectly operate, maintain, utilize or control any Information Systems, and that does not, and is not required to, directly or indirectly control, own, access, generate, receive or possess Nonpublic Information shall be exempt from the requirements of Sections 500.02, 500.03, 500.04, 500.05, 500.06, 500.07, 500.08, 500.10, 500.12, 500.14, 500.15, and 500.16 of this Part.

(d) A Covered Entity that qualifies for an exemption pursuant to this section shall file a Notice of Exemption in such form set forth as Appendix B.

(e) In the event that a Covered Entity, as of its most recent fiscal year end, ceases to qualify for an exemption, such Covered Entity shall have 180 days from such fiscal year end to comply with all applicable requirements of this Part.

Section 500.20 Enforcement.

This regulation will be enforced by the superintendent pursuant to, and is not intended to limit, the superintendent's authority under any applicable laws.

Section 500.21 Effective Date.

This Part will be effective March 1, 2017. Covered Entities will be required to annually prepare and submit to the superintendent a Certification of Compliance with New York State Department of Financial Services Cybersecurity Regulations under section 500.17(b) commencing February 15, 2018.

Section 500.22 Transitional Periods.

(a) Transitional Period. Covered Entities shall have 180 days from the effective date of this Part to comply with the requirements set forth in this Part, except as otherwise specified.

(b) The following provisions shall include additional transitional periods. Covered Entities shall have:

(1) One year from the effective date of this Part to comply with the requirements of sections 500.04(b), 500.05, 500.09, 500.12, and 500.14(a)(2) of this Part.

(2) Eighteen months from the effective date of this Part to comply with the requirements of sections 500.06, 500.08, 500.13, 500.14 (a)(1) and 500.15 of this Part.

(3) Two years from the effective date of this Part to comply with the requirements of section 500.11 of this Part.

Section 500.23 Severability.

If any provision of this Part or the application thereof to any Person or circumstance is adjudged invalid by a court of competent jurisdiction, such judgment shall not affect or impair the validity of the other provisions of this Part or the application thereof to other Persons or circumstances.

(Covered Entity Name)

February 15, 20____

Certification of Compliance with New York State Department of Financial Services Cybersecurity Regulations

The Board of Directors or a Senior Officer(s) of the Covered Entity certifies:

(1) The Board of Directors (or name of Senior Officer(s)) has reviewed documents, reports, certifications and opinions of such officers, employees, representatives, outside vendors and other individuals or entities as necessary;

(2) To the best of the (Board of Directors) or (name of Senior Officer(s)) knowledge, the Cybersecurity Program of (name of Covered Entity as of_____(date of the Board Resolution or Senior Officer(s) Compliance Finding) for the year ended__(year for which Board Resolution or Compliance Finding is provided) complies with Part ____.

Signed by the Chairperson of the Board of Directors or Senior Officer(s)
